Slide Title: Asha Bot – Her Career Compass

Subtitle: Project Overview

🔵 **What is Asha Bot?**

An AI-powered, voice-enabled chatbot built to support **women re-entering the workforce** with personalized career guidance and real-time empowerment tools.

💡 **Key Capabilities:**

- 🎧 **Voice-first Interaction** – Talk, don't type
- 💼 **Career Navigation** – Smart job & mentor matching
- 🧠 **Bias Detection** – Reframes limiting beliefs using Perspective API
- 📈 **Empowerment Pulse** – Visual trends for confidence & progress
- 🔒 **Privacy-first** – No login, no data tracking

🛠️ **Built With:**

- **Rasa, Transformers, Gradio/React**
- **Perspective API, Airtable, CSV-based Search**
- **Dockerized Backend, Serverless Hosting**

✨ **Why Asha?**

To **bridge the gap** between potential and opportunity — giving every woman a **safe, private, and powerful tool** to restart her career journey with confidence.
